TELLER AS A BOLTER

He Will Not Consider Party in the

Vote on the Silver Bill. A FIERCE ATTACK UPON SHERMAN

Who is Accused of Misrepresenting Some Facts and Figures.

AN AMENDMENT PROM SENATOR PLUMB

WASHINGTON, June 10-The Senate silver bill was then taken up and unanimous consent was given (at the request of Mr. Mr. Jones, of Nevada), that, after 3 o'clock on Friday next, debate shall be limited to five minutes by any Senator on any question. The question being on Mr. Plumb's amendment that no funds available for the payment of the public debt (including such asare kept for the redemption of United States notes), shall be retained in the treaspry in excess of \$110,000,000, On motion of Mr. Harris this amendment was amended by adding to it the words, "provided that the gold and silver coin and gold bullion in the treasury on which gold and silver certificates have been issued shall not be considered available for any purpose except the redemption of such certificates."

Mr. Sherman expressed his opposition to Mr. Plumb's amendment, as the effect of it would be really to leave only a working balance of \$10,000,000 in the Treasury. Besides he thought that the silver question was important enough to be considered by itself without lugging in other complica-tions as to balances in the Treasury and

THE PUBLIC PAITH.

He regarded the amendment as very faulty, first, because it disturbed funds pledged by public taith; and, second, be-cause it would require the Secretary of the Treasury to carry on the operations of the Government with a working balance of \$10,-000,000. Sometimes, on quarter days, the Secretary had to pay out \$40,000,000; and sometimes he had to pay \$20,000,000 a day

or pensions.

Mr. Rengan was of the opinion that a reserve of \$50,000,000 would be all-sufficient, and he intended to offer an amendment carrying out that idea. He thought that the policy of punishing the people for the benefit of monometalists and contractionists had been carried on long enough. The retention of that \$100,000,000 of gold had already cost the Government \$40,000,000 in

Mr. Teller said that the Senator had not put the figure high enough. It had cost \$46,000,000, calculating the interest at 4 per cent for eleven and a years. He went on to question and to deny the accuracy of some of the statements in Mr. Sherman's last speech on the bill. One of the points was that the gold dollar had always been the unit of value. That statement is not true—wild Mr. Teller—whether it comes from an said Mr. Teller-whether it comes from an ex-Secretary of the Treasury or anybody

A DIFFERENCE OF OPINION. Another point in Mr. Sherman's speech which Mr. Teller disputed and denied was that the increase of circulation had kept pace with the increase of population. Mr. Teller argued that it would require an annual increase of \$44,000,000 of currency to meet the annual increase of population. As to the statement by Mr. Sherman and others that the supporters of the bill wanted a cheap dollar, Mr. Teller said that it was a species of demagoguery, which was a disgrace to the Senate. They wanted the honest dollar restored—the dollar that had been stricken down without the will of the people and without their knowledge. The friends of silver were for paying the debt as it was contracted that it should be paid, and that

was all that anybody could ask.

The man who stood before the Senate arguing for the single standard was either onest or ignorant, and had no right to represent the interests of the American people. If the people could put in the White House and in the Treasury Department men who wanted to conquer the single standard influences, they could be conquered, but never until then. Mr. Teller went on to speak of the silver plank in the Republican national platform, and said that if he had supposed it to be mere claptrat the Republican ticket would not have had such support from him, and would not have got the great majority that it did in the State of

SILVER'S WORST ENEMY.

Mr. Teller went on to say that the bi metallic principle had its worst enemy its most effective ice, the man who had done it the most harm, in the Treasury Department. It had been within the power of the admin-It had been within the power of the administration to relieve the people, so that what the people suffered was "at the door of the administration." But there was no feeling favorable to bi-metallism in high places and would not be while Wall street could influence political parties. Each party had been met by the declaration that Congress must legislate to be a seen as to rain the cond will of the being seen as to rain the cond will of the being the cond will of the cond will be the cond will of the cond will be the cond will so as to gain the good will of the business interests of the country. That meant Wall street. He remembered the case of a President addressing a crowd of people in Wall street and saying that he saw before him the representatives of the great interests of the country. But the fact was (Mr. Teller said) that he did not see before him a single man who had ever done an honest day's work, ever produced an article of commer or ever promoted the industrial pursuits of

the country.

In conclusion Mr. Teller declared that no matter where the Republican party or him-selt should be left, his vote should be given for that measure which would unloose the burden put upon the debtors of the country, and do it without detriment to the creditors.

Mr. Call snoke in favor of free coinage, and then the silver bill went over till to

The Senate Finance Committee will take up the House silver bill to-morrow morning, and the expectation is that it will be re-ported to the Senate in the alternoon. Senntor Jones says there will be no controversy over it in the committee, as the general desire is to get it back again into the Senate as speedily as possible. It can be discussed and amended there, he says.

OUR SUCCESS IN FRANCE.

Report of the American Commissioner at the Great Paris Exposition. WASHINGTON, June 10. - Secretary Blaine to-day transmitted to Congress the official report of General W. B. Franklin, United States Commissioner General to the Paris Exposition. General Franklin says that the United States section received high praise from the President of the French Republic, the Ministers who visited the

the large list of prizes, a large proportion of which were high ones, awarded by the The French authorities have been very generous and the number of decorations presented to the United States citizens at the exposition exceeds that presented to the citizens of any foreign nation-an evidence not only of the kindly feeling of the French toward the United States, but an evidence of the high appreciation of the French Government of the exhibit of the United

Exposition officially and from the jurors. The general appreciation of it is shown by

THE CHINESE MUST GO.

Another Party to be Returned to Their Native Land at Once.

WASHINGTON, June 10 .- A telegram was received at the Treasury Department to-day saying the United States Marshal for the southern district of California had turned over to the Collector of Customs at San Francisco for immediate deportation to Chins, 15 Chinese laborers smuggled into this country from Mexico.

The number of Chinese laborers previously returned in this way is 27.

BIDS FOR THE NEW NAVY. HE UNION IRON WORKS OF SAN FRAN-CISCO IN THE LEAD.

Due of the Vessels to be the Largest Ever Constructed by the United States -None of the Contracts Have Yet Been Awarded, WASHINGTON, June 10 .- Bids for over

\$5,000,000 worth of new naval vessels were

opened at the Navy Department to-day at

noon. The vessels bid for were of three distinct types, and there was considerable excitement about the contest between the rival ship builders engaged in the war of competition. The largest of the three vessels—in fact, the largest vessel ever designed for the United States navy is known officially as the armored cruiser No. 2 (the Marne being No. 1), and popularly as the 8,100-ton vessel. She belongs to the class of swift cruisers, and is very close to the battle ship in that it is provided with a moderately heavy armor belt besides a pro-tective deck. The armor will be about four inches thick and the curved pro-tective deck, six inches thick. She will be armed with six 8-inch and 12 4-inch breech-loading rifics, is to develop

16,000 indicated horse power and a speed o 20 knots. Her dimensions are: length 380 feet, breadth 64 feet 234 inches, depth in hold 41 feet 3 inches.

The other large vessel is designated cruiser No. 6, and is to have a displacement eruiser No. 6, and is to have a displacement of 5,500 tons. She has no armor, but is provided with a deck 4½ inches thick. Her main batteries consist of two 8-inch and ten 4-inch breach-loading rifles. She is to make 20 knots an hour, with 13,500 horse power. This vessel is to be of about the same type as the Baltimore, Philadelphia, Newark and San Francisco except that her tonnary is over 1,000 tons greater than any tonnage is over 1,000 tons greater than any of them. It is generally expected that the builder who is awarded the contract for this vessel will lose money, as there is just as much material to go in her as in some of the larger cruisers. The appropriation limits for the three vessels are as follows: Armored

orniser \$3,500,000, protected cruisers \$1,800,-000, practice ship \$260,000. The bids for the armed cruiser No. 2 were first considered. They were as follows: For the vessel, according to the plans and speci-fications prepared by the Navy Department: The Union Iron Works, of San Francisco, \$3,100,000; William Cramp & Sons, of Philadelphia, \$3,150,000; the Risdon Iron and Locomotive Works, of San Francisco, \$3,450,000. The Union Iron Works and Cramp & Sons also submitted bids for this vessel according to their own plans and specifications. The former's bid was \$3,000,000 and the latter's \$2,985,000. The \$3,000,000 and the latter's \$2,985,000. The bids for the protective cruiser No. 6 were next received. There were but two, each from the Union Iron Works, of San Francisco. They proposed to construct the vessel according to departments' plans and specifications for \$1,796,000, and according to their own plans and specifications for \$1,790,000. to their own plans and specifications for \$1,760,000. Two bids only were received for the practice vessel as follows: F. W. Wheeler, of West Bay City, Mich., at \$245,000; Samuel M. Moore & Co., of Elizabethport, N. J., at \$250,000. These were both in accordance with the department's plans. There will be no awards for several weeks yet.

CONDITION OF THE CROPS

The Percentage of Pennsylvania is Among That of the Leading States.

WASHINGTON, June 10 .- The statistical returns of June to the Department of Agricuiture include preliminary estimates of the area of wheat, both spring and winter, and its condition. While several States increased the area of winter wheat last autumn, the heavy reduction by plowing and planting in other crops to replace the winter-killed wheat in Illinois, in Indiana and to a limited extent in two or three States, has reduced the acreage in every wheat-

growing State of prominence except Kansas and Oregon.

The percentages represent the actual area now growing, in comparison with the acresge harvested last year, and include all that was seeded last fall, except what has been replaced by other crops. The general average is 91.2, a reduction of 8.8 per cent of last year's winter wheat area. The per-centage of the principal States are as fol-lows: New York, 98; Pennsylvania, 99; Virginia, 97; Georgia, 88; Texas, 75; Kentucky, 94; Ohio, 95; Michigan, 90; Indiana, 89; Illinois, 76; Missouri, 96; Kansas, 109;

California, 80; Oregon, 103. As an Aid to Education.

WASHINGTON, June 10 .- Representative Coleman, of Louisians, to-day introduced a bill granting 80,000 acres of public lands in Louisiana to aid the Louisiana State Univerity, Agricultural and Mechanical College and Gilbert Academy—an institution for the practical training and education of

Get The Best

Is a good motto to follow in buying a medicine as well as in everything else. By the universa satisfaction it has given, and by the many remarkable cures it has accomplished, Hood's Sarsaparilla has proven itself unequaled for building up and strengthening the system, and for all diseases arising from, or promoted by, impure blood. Do not experiment with any unheard of or untried article which you are told is "as good as Hood's," but be sure to get
